EROSION/SEDIMENTATION CONTROL PLAN SUBMITTAL REQUIREMENTS

Sec. 3.16.011 Submission of Erosion/Sedimentation Control Plan to Town

(a) In instances where an Owner or an agent in charge of any property seeks to conduct and/or to perform work which will necessarily involve land disturbing activities including, but not limited to, excavation, grading, demolition, drainage work, and/or stock piling of unprotected soil(s) and sand(s) within the Town* (*as determined by the Town's Building Inspection Department), prior to the commencement of said work, the Owner or agent shall first submit to the Town Engineer for review an erosion and/or sedimentation control plan. The Town Engineer or his designee will review each proposed plan to determine its conformance with the provisions of the regulation. Within ten (10) business days after receiving a proposed plan, the Town Engineer shall, in writing:
